

CELEBRATING OUR 57TH YEAR

The world's premier conference on electronic test.

Where the semiconductor ecosystem converges to advance test and manufacturing — silicon to systems.

October 11–16, 2026

Grand Hyatt River Walk, San Antonio, TX

itctestweek.org

WHY ATTEND

Learn. Connect. Influence.

L Learn

Industry-grade, peer-reviewed content covering the full electronic test discipline.

- Semiconductor test fundamentals — 101
- Design for Testability (DFT)
- Reliability & silicon lifecycle
- AI applications
- Advanced and emerging topics — 3DIC

C Connect

A multidisciplinary community of ~1,000 spanning industry, academia, and ecosystem partners — worldwide.

- Foundries, fabless, IDMs, OSATs, ATE, EDA
- Academic test research community
- Global reach: ITC, ITC-Asia, ITC-India
- Panels, poster sessions, workshops
- Grand Reception & networking events

I Influence

Shape what the community works on next through papers, panels, and new participatory formats.

- Research + Industrial Practice papers
- Special sessions & panels
- Industry Test Challenges Meeting
- **New:** AI User Forum
- **New:** AI in Test (AIT) Workshop

ITC 2026 AT A GLANCE A full week of learning, connecting, and shaping the field.

12

TUTORIALS

4

KEYNOTE & VISIONARY TALKS

5

PARALLEL TRACKS

45+

REGULAR & SHORT PAPERS

40

POSTERS

3

WORKSHOPS

20

EXHIBITORS

WHY SUPPORT ITC

Reach the global test community.

ITC sponsorship places your organization at the center of a **multidisciplinary, worldwide community** that shapes the future of semiconductor test — DFT architects, test engineering directors, reliability leaders, program managers, and researchers spanning every layer of the silicon-to-systems ecosystem.

- ◆ **Brand presence** with a global, senior technical audience
- ◆ **Exhibit & corporate presentation** opportunities on the floor
- ◆ **Tutorial & workshop** co-organization
- ◆ **Speaker & panel** visibility
- ◆ **Year-round amplification** through ITC's content engine and IEEE channels

WHO'S IN THE ROOM

~1,000

engineers, researchers, and executives across six days.

2026 Program Committee affiliations include: TSMC · Intel · Meta · NVIDIA · Broadcom · Cadence · Advantest · Siemens EDA · Synopsys · IBM · TI · NXP · AMD · Arm · Infineon · Mediatek · Qualcomm · Cisco · Renesas · GlobalFoundries · IMEC · Duke · CMU · Georgia Tech · UT Dallas · Texas A&M · UC Santa Barbara · U Florida · SMU · and many more.

2026 SUPPORTERS

Made possible with the partnership of:

DIAMOND

SIEMENS

PLATINUM

SYNOPSYS ADVANTEST

GOLD

arm

SILVER

Spots available — join the ITC 2026 supporter community
